CONDITIONS OF SUPPLY

1. A fee of \$150.00 is payable when reconnecting an existing metered supply on to the system.
2. A deposit of \$200.00 is required for consumers who are not owners of the property when opening a water account.
3. Once water leaves Council's reticulation system and passes through the water meter it is the property owner's responsibility.
4. You pay for the actual amount of water as recorded by the water meter on your property subject to a minimum charge applying. Current rates available from Council.
5. It is in your interest to keep pipes and fittings within your property in a good state of repair to avoid unnecessary losses and wastage. Water losses will be a cost on you as the consumer.
6. Property owners are advised to regularly check their water meters and if the water consumption appears excessive, you are invited to contact the Engineering Department on (06) 838 7309 for advice.
7. Should a property owner request a special reading outside the normal quarterly reading cycle a fee of \$50.00 is payable. (This fee is not payable for final readings where a property is sold).
8. Request for confirmation of reading: Council will undertake a special reading where a property owner is of the opinion that the last reading was incorrect. Should there be an error no fee is payable, however should the reading be confirmed as correct then a special reading fee will apply as per (7) above.
9. Any legal expenses incurred for recovery of overdue accounts will be payable by the property owner.
10. Notice in writing (signed by the property owner) is required for disconnections and final readings.
