## Need more information from the 2006 Census?

### ***Why use census information?***

Statistics New Zealand has gathered a vast amount of information from the 2006 Census of Population and Dwellings. From this, we have developed a range of products and services that are available on the web. Some products are also available in hard copy.

2006 Census information is a valuable resource that will be useful if you are:

- 1 curious about New Zealand and want to browse for general information
- 2 from a school, community group, library or business and looking for particular information, or
- 3 looking for complex data.

For example, you can access population and dwelling information by:

age	means of heating dwelling
birthplace	means of travel to work
education/qualifications	number of occupants in dwelling
ethnic group	number of motor vehicles
home ownership	number of rooms
hours worked	occupation
income	sex
industry	... and more
languages spoken	

You can find this information at: [www.stats.govt.nz/census](http://www.stats.govt.nz/census)

### ***Are you looking for information about a region?***

Information is available at a city, district, regional and area unit (suburb) level.

- 1 `Cities` or `districts`, where used, refer to territorial authority areas.
- 2 `Regions`, unless otherwise stated, refer to regional council areas.

### ***Who can help me find the information I want?***

Statistics New Zealand's Information Centre staff know what information is available, and how it can best be used. They are guides to Statistics New Zealand's information.
