CEMETERIES

Ngā urupā

Cemeteries of the Wairoa District provide land and facilities for the burial or interment of ashes of the dead and their remembrance and provide records and an enquiry service for all Council- owned cemeteries.

Council staff and contractors work to ensure cemeteries are maintained to a high standard that shows respect for those interred.

Council's property team look after the administration of the cemeteries, including maintenance of the database, queries and coordination of burial arrangements.

Day-to-day operations and maintenance are carried out by private contractors.
